

Apr - 11th

Dear Sir

About an hour
after you left I re-
ceived an letter from
my daughter Mrs Blake
expressing a wish to
complete the gift of
Blanco's Botanical work
to the Library

I shall therefore
write immediately to
Merritt and when
they look us over
send them to
our companions to
those you saw.

Mrs Blake wishes to con-
tinue her brother's subscription
& write with us in

giving the work a debt-
ful article to send
some appeared, the no matter
on the subject can never
be known -

Sincerely yours

Wm. D. P. Young
